

# INDUSTRIAL BAGS

Adapted to different markets such as Public Works and Construction, Agriculture, the Food, Chemical, Distribution and Leisure industries, our industrial bags meet a wide variety of applications in very different sectors.

## TRIMALÈNE®

Made from a specific formula, Trimalène®, advantageously replaces PEBD and makes it possible to reduce thicknesses whilst maintaining excellent mechanical properties.

## CHEVILLARD BAGS

Adapted to the agrifood industry specialised in meat processing, our bags have excellent freeze-resistance.

## BOX LINERS

Completely protective, our product is ideal to cover the bottom of boxes and thus prevent any risk of deterioration or contact with harmful elements.

## PROTECTIVE COVERS

Ideal to protect the inside of containers, tanks, skips or pallet tops, our covers can be used for a variety of applications in a wide range of sectors.

## TOP COVERS

Ideal to cover pallet tops making them waterproof and tamperproof.

*All our products can be used for food and freeze contact. We can also supply materials that have been validated for pharmaceutical use.*

## RANGE

## DIMENSIONS
